*** Excellent Drought Resistance Once Established.

* Good Drought Resistance Once Established.

♣ Poor Drought Resistance F - Fire-Wise Plants

Refunds will take 6-8 weeks and will be paid through UW In Laramie

SHRUBS

*** (F) **ANTELOPE BITTERBRUSH** - Mature height 6'. Native, excellent drought tolerance and cold hardiness. Well suited for a wide range of soils. Excellent wildlife food source.

* **BUFFALOBERRY** - Mature height 10'. Suckering shrub; withstands cold, wind and drought; tolerates alkaline soils, attracts birds. Native, Indians used the berries to flavor buffalo meat

*** **CARAGANA** - Mature height 10'. Excellent drought, cold and alkali tolerances. Very hardy. Good choice for windbreaks. Multi stemmed. Best in sandy to loamy soils up to 9,500'.

* (F) **CHOKECHERRY** - Mature height 10'. Excellent cold hardiness. Good choice for windbreaks and attracting wildlife. Native, multi stemmed, up to 9,000'.

* **COTONEASTER** - Medium shrub; drought resistant; alkaline tolerant; high wildlife value.

◆ **COYOTE WILLOW** - Mature height 10'. Excellent cold and alkaline tolerance. Good wildlife suitability. Grows well in moist soil.

* (F) **GOLDEN CURRANT** - Small to medium shrub, fairly drought and alkali tolerant. Good cover for small wildlife. Plant up to 8,000'.

* (F) **LILAC** - Mature height 10'. Dense shrub, excellent cold hardiness and windbreak suitability. Attractive purple flowers. Multi stemmed, grows well in most soils up to 8,000'.

*** (F) **MOUNTAIN MAHOGANY** - Mature height 6'. Excellent cold hardiness and grows well up to 9000'

* **NANKING CHERRY** - Mature height 6'. Excellent cold hardiness and wildlife suitability. Grows well in most soils up to 8,000'.

* (F) **NATIVE PLUM** - Mature height 8'. Excellent cold hardiness, windbreak and wildlife suitability. Does well in most soils (excluding strongly alkaline) statewide up to 8,000'.

RED-OSIER DOGWOOD - Mature height 10'. Native. Great winter color. Excellent wildlife suitability, fast growing, multi-stemmed shrub.

◆ **THIMBLEBERRY** - Mature height up to 8'. Native fruit bearing shrub. Fruit can be used for jam, jelly, pemmican and fruit leathers. Attracts wildlife including birds.

*** **THREE LEAF SUMAC** - Small to medium shrub: excellent drought resistance: alkaline tolerant: plant to 8,000'

* **WILD ROSE / WOODS ROSE** - Mature height 4'. Rapid growth, excellent wildlife value, especially in winter, up to 10,000'.

Issued in furtherance of Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Bret Hess Interim Dean and Director of the College of Agriculture and Natural Resources, University of Wyoming, Laramie, Wyoming 82071.

Persons seeking admission, employment, or access to programs of the University of Wyoming shall be considered without regard to race, color, religion, sex, national origin, disability, age, political belief, veteran status, sexual orientation, and marital or familial status. Persons with disabilities who require alternative means for communication or program information (Braille, large print, audiotape, etc.) should contact their local UW Extension Office. To file a complaint, write the UW Employment Practices/Affirmative Action Office, University of Wyoming, Dept. 3434, 1000 East University Avenue, Laramie, Wyoming 82071.

DESCRIPTIONS

DECIDUOUS TREES

◆ (F) **ASPEN** - Mature height 35'. Attractive ornamental tree. Prefers moist soils. Excellent cold hardiness. Potential disease problems

*****BUR OAK** - Mature height 40'. Excellent drought tolerance, windbreak and wildlife suitability up to 6,500'. Slow to establish.

*****HACKBERRY** - Mature height 40'. Excellent cold hardiness and windbreak suitability. Drought tolerant; does well in difficult sites up to 7,000'.

* (F) **HONEYLOCUST** - Mature height 40'. Broad, open crown. Excellent cold hardiness. Potential disease problems; up to 7,500'.

* **MANCHURIAN APRICOT** - Mature height to 20'. Fast growing, rounded, spreading form. Excellent cold hardiness, attractive flowers, edible fruit. Valuable to bees and wildlife.

PERENNIALS

◆ (F) **COLORADO BLUE COLUMBINE** - Mature height 6" – 36". Native perennial. Sub-alpine meadows, open woods and near mountain streams

(F) **EASTERN PURPLE CONEFLOWER** - Smooth, 2-5 ft. stems and long-lasting, lavender flowers. Rough, scattered leaves that become small toward the top of the stem. Flowers occur singly atop the stems.

(F) **FIRECRACKER PENSTEMON** – Herbaceous perennial. In late spring, vertical flower stalks rise up 1-4 ft. Sets seed readily. Pollination is by hummingbirds, but hawkmoths, bumble bees, and carpenter bees are also attracted to it.

LANCELEAF COREOPSIS - A clump-forming perennial herb with short rhizomes. Prefers full sun, but will tolerate light shade. Tolerates drought

(F) **ROCKY MOUNTAIN PENSTEMON** - A 1-3 ft. evergreen perennial with multiple spires of large, royal-blue to purple flowers rising above low mats of foliage. Prefers dry, light, well-drained soils.

(F) **YELLOW PRAIRIE CONEFLOWER** - Is a native ornamental wildflower. It is pollinator friendly, drought-tolerant and low maintenance.

LEADPLANT - Mature height 10'. Native, Cold hardy, wildlife sustainability, deer resistant, pollinator interest by bees, butterflies.

LITTLE BLUESTEM GRASS - A warm-season perennial grass. Height from 1-3 feet. Adapts well, drought tolerant, appeals to wildlife.

(F) **BLUE GRAMA GRASS** - Has a short stature with a prolific root system. Has a fair salinity and moderate alkalinity tolerance. It is drought-tolerant and grows well in sandy to clay soil.

(F) ◆ **WILD BERGAMOT** - mature height 4'. Grown as an herb or for cutting, naturalizes, and rain garden. Cold hardy, wildlife suitability, pollinator interest by hummingbirds and butterflies

EVERGREEN TREES

*****AUSTRIAN PINE** - Mature height 40'. Densely pyramidal. Excellent drought resistance up to 7,000'. Very adaptable, establishes quickly, good windbreak tree.

***BLACK HILLS SPRUCE** - Mature height 30-60'. Exceptionally dense foliage. Ideal for windbreaks or screens. Slow growth. Good for nesting birds and small mammal habitat

*** **BRISTLECONE PINE** - Mature height 30'. Distinctive appearance-picturesque. Slow growing, excellent cold hardiness, drought tolerance and windbreak suitability up to 11,000'

COLORADO BLUE SPRUCE - Mature height 60', attractive ornamental up to 9,000'. Prefers moist soils, excellent cold hardiness.

***DOUGLAS FIR** - Mature height 50'. Native, best from 6,000-9,000'. Excellent cold hardiness, good drought resistance

*** **EASTERN RED CEDAR** - Mature height 20'. Densely pyramidal up to 7,500'. Excellent cold hardiness, windbreak and wildlife suitability.

* **ENGLEMANN SPRUCE** - Mature height 30'. Densely pyramidal crown. Best above 8,000'. Excellent cold hardiness.

* **LIMBER PINE** - Mature height 35'. Excellent cold tolerance, slow growing long lived with high wildlife value, up to 11,000'.

*****LOGEPOLE PINE** - Mature height 35-70' Excellent drought resistance & cold hardiness. Slow growth rate. Good for high elevation.

*****PINON PINE** - Mature height 20'. Densely pyramidal up to 7,500'. Attractive, slow growing, native. Excellent cold, drought & alkali tolerance.

*** **PONDEROSA PINE** - Mature height 40', open crown. Native, excellent cold and drought tolerance, windbreak & wildlife suitability. Establishes quickly up to 9000'. Grows well in all but the heaviest clay soils.

*****ROCKY MOUNTAIN JUNIPER** - Mature height 20'. Densely pyramidal, tough native up to 9000'. Excellent windbreak & wildlife suitability.

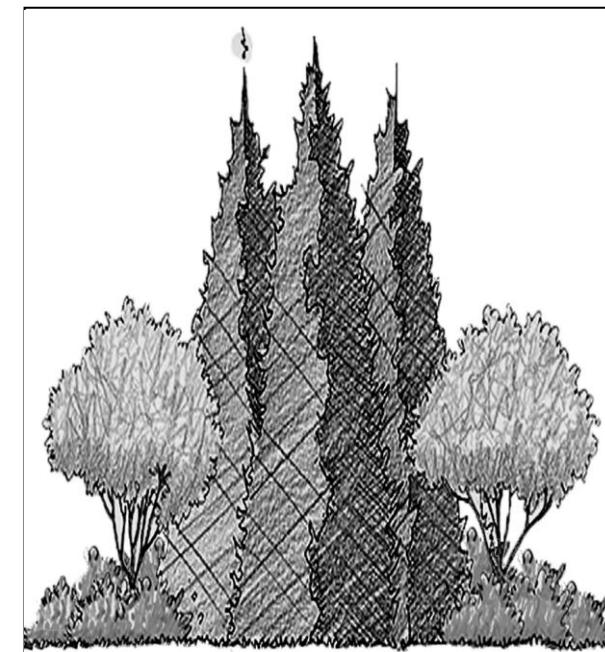

* **SCOTCH PINE** - Mature height 30'. Irregular open crown and spreading branches, up to 7000'. Good cold & drought tolerance. An introduced species.

***WHITE FIR** - Mature Height 100'. Soft needle more drought resistant substitute for Blue Spruce. Excellent cold hardiness.
