

News Release:

Pathfinder's Bishop Point Area Boundary Change

Those recreationalist using Pathfinder Reservoir, specifically Bishop Point, are hereby notified there has been a boundary change. Previously, the area north and west of the campground and boat docks was not included in the Natrona County Parks management area. However, in cooperation with the Bureau of Reclamation, U.S. Fish and Wildlife Service and Natrona County Parks, that area is now located within Park boundaries. Those using this area are now subject to Natrona County Parks Rules and Regulation and must adhere to the same rules that apply to other County Parks. Therefore, camping permits will be required at \$10 per night per unit as well as compliance with regulations. Natrona County currently supports existing improvements including a restroom, picnic tables and fire rings. If you have any questions, feel free to contact the Natrona County Parks Department at 307-235-9311. Please see map for new boundary lines.
