Unidentified Bodies	0	0	0	0	0	0	0	0	0	0	0	0	0

***Assist:** The coroner may be called when a person dies in Natrona County, but the origin of the investigation is from another county. Patients may be transferred into a medical facility from other counties, but die in Natrona County. In those cases, the Natrona County Coroner may assist the coroner of jurisdiction, but not conduct the investigation.

****Administrative:** Final determination on manner and cause of death is awaiting determination by the Coroner.

*****Backward Cases:** Coroner cases that were not reported to the coroner at the time of death. By the time notification of death is reported to the coroner, the final disposition has already been determined and the body is not in the custody of the Coroner. An investigation is then completed by the coroner in order to rule a cause and manner of death for completion of the death certificate.

Toxicology: Specimens are drawn on all cases for toxicology purposes.

External Examinations: Performed on all cases
